

T0 Calibration

Andre Lebedev
MIPP Collaboration Meeting
April 8, 2006

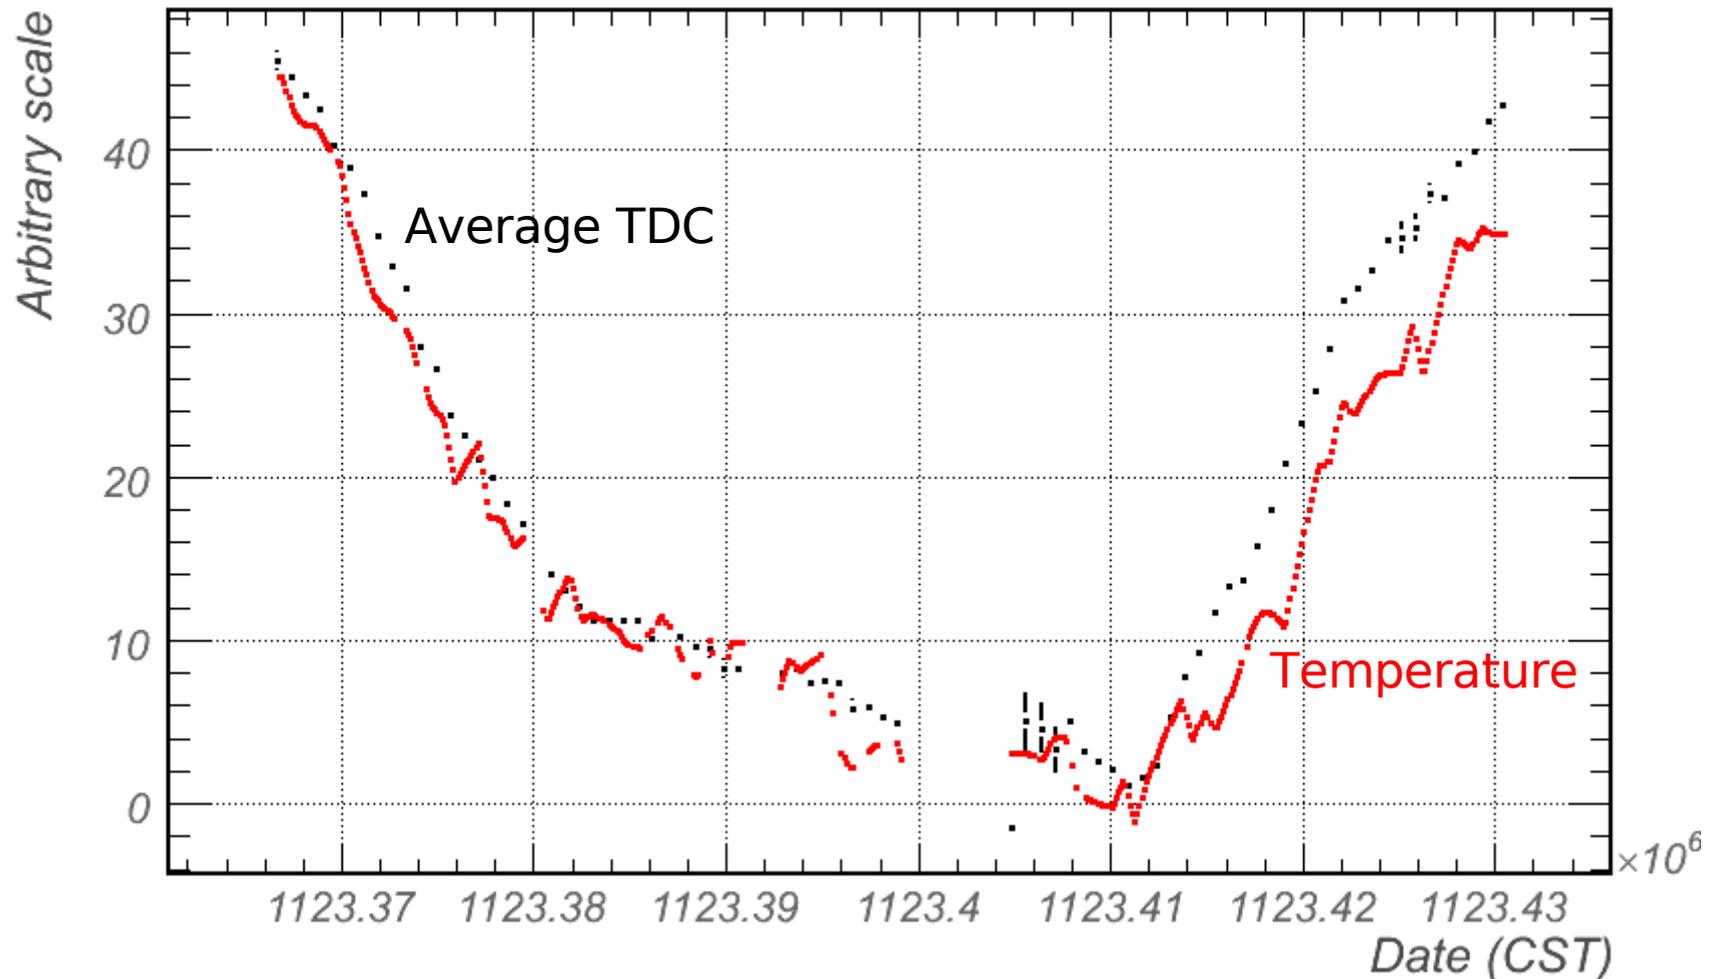

TDC Offset Drifts In Time

- Correction algorithm is in T0Reco
- Progress report on Mar 16, 23, 30 software meetings
- To become a MIPP note

Attributed to Temperature Dependent Delay

T01a-ribbon & F:MCTEM2

Correction Seems To Work

- To be done in pass1, will judge quality in pass2
- Post-correction T01-TBD time resolution is $\sim 120\text{ps}$ with 120 GeV beam
