

E907 Status

Rajendran Raja

Fermilab

16-March 2002

- We got approved
- We have a new name- MIPP – Main Injector Particle Production- Earl Swallow’s suggestion
- We may have to have a DoE poster session at Fermilab , March 19-21. Need two volunteers to do Posters if we are asked- Witherell.
- Ed Hartouni has been a founding member of E907 and his support has been sine qua non for E907.
- I have asked him to serve as co-spokesperson. He has graciously agreed. I will remain Spokesperson.
- An ad hoc committee consisting of Sanjib Mishra, Peter Barnes and Ron Soltz are in the process of drafting “A constitution for MIPP”. When it is ready to circulate, it will be circulated for comments from the collaboration.

MIPP Status

- We have signed an MoU between Livermore and FNAL. An accompanying SoW also. The ICO is in the works and will get the experiment installation in progress.
- Formation of an APS topical Hadronic Group.
- Need to make DoE /NSF aware of MIPP.
- Interest in joining MIPP from across the Atlantic.
